Everyone
We devote most of our time and energy to discussing problems and issues related to our community on campus. But we have seen positive steps this year. We want to stop and celebrate these and remember that we are making a difference. What changes are you aware of that have helped make the UA a safer, more inclusive and welcoming place for members of our community?
5. Recommendations to the President
Andrea Carmichael - Chair
As the end of this school year approaches, we want to send a list of our recommendations to President Robbins concerning changes that we would like to see in order to make the UA a more inclusive, welcoming and open place for members of our community. What do you see as the top two or three recommendations we should make?
